The wedding photographs are yours!

And why shouldn't they be! Your DVD portfolio contains every image that was taken during your wedding. Use it to make prints and web sites, send email pictures or burn additional DVDs for family & friends.

All wedding packages include:

- 300 - 1000 colour and black & white images. (quantity varies with package)
- Two DVD sets containing all of the images taken during your wedding day.
- An on-line Client Gallery of 200-400 images to share with family & friends.
- Location scouting. I like to combine amazing scenery and dramatic lighting for your one-of-a-kind photo shoot so I'll work hard to find you "unique" locations that will inspire you and your wedding party. View [my galleries](#) to see some examples.
